Impulse hand sealers seal poly bags and other thermoplastic materials quickly and efficiently without any warm-up time. Depending on the model of the machine, material up to 16" wide and 10mil total thickness can be sealed. The sealers are equipped with a plug-in electronic timer that controls the different sealing times needed for the varying thicknesses of different materials. Available in 4", 8", 12", and 16" with a 2mm or 5mm seal width. The manufacturer's kit includes two elements and two PTFE covers.

Cut and Seal Applications: Round wire heating elements are available for cut and seal applications. There is no additional charge for the round cut wire.

Easy to Operate: Set the timer; insert the bag between the sealing bars, then press down and release. We recommend that the user hold the sealing arm down for an additional second or two to ensure enough time for the bag to set and cool.

FEATURES

- Plug-in electronic timer for variable control
- All metal construction
- No warm-up time
- Round wire available for seal and cut applications (recommended for shrink wrapping)

Specifications:

Model #	Seal Width	Seal Length	Power
TISH-100	2MM	4"	180W
TISH-105	5MM	4"	280W
TISH-200	2MM	8"	330W
TISH-205	5MM	8"	450W
TISH-300	2MM	12"	450W
TISH-305	5MM	12"	600W
TISH-400	2MM	16"	600W
TISH-405	5MM	16"	800W
